

Master Data – Opening & Mutations

The Company

In 2006, CETREL Securities S.A. was created as a **regulated company** supervised by the CSSF in Luxembourg and dedicated to financial data services and regulatory reporting. In March 2025, SIX group acquired the company which is now known as SIX Financial Insights Luxembourg and continue to be regulated by the CSSF.

Main Features

- Clients served worldwide (with BPO) feeding different back-office systems (T24, Olympic, Xentis...)
- Support of all kind of financial instruments, with a data field matrix per asset class for financial instrument opening & mutation
- Ad hoc or scheduled requests, via web services or via sFTP to open financial instruments within a short turnaround time
- Support of most common data providers
- Easiness to add new data providers (including client or counterparty data)
- Easiness to add new data items or mappings
- No impact of data provider releases on business rules and data mappings for clients
- New regulatory constraints monitoring

- BPO (Business Process Outsourcing) services
- Full Audit trail per security
- 24/7 monitoring with night call availability
- Supports the increase of data quality/consistency and level of straight-through processing
- Leads to a reduction of:
 - Operational risks
 - Data vendor dependency
 - Time to market
 - Volatility in process
 - Technology investment spending
 - Global Total Cost of Ownership

Product Description

Master Data - Opening & Mutations is a fully automated solution, with an efficient and intuitive exception handling system, a clear focus on needs of back and middle offices, and offering BPO (Business Process Outsourcing) services.

Master Data - Opening & Mutations gathers the desired information within a short turnaround time, manages data mutations and delivers the data in a “ready to-use” format to banking/insurance system(s).

MasterData (PROD) 297450
